INTRODUCTION

I moved from my home country of Thailand to the U.S. 5 years ago, and I am a permanent resident with legal working status. I have worked my way up, starting as a waitress, until I found my passion in coding. I am a full stack software developer with a bachelor's degree in design from Bangkok University. I am personable with a talent for developing solid relationships with co-workers and clients. My work ethic and dedication to exceeding expectations is what keeps me motivated to impress, and I continuously strive to improve my craft.

TECHNICAL SKILLS

Ruby on Rails, SQL, MongoDB, Javascript, Node.js, React.js, Vue.js, React native(expo), Bootstrap, Material-UI, Git / Github, AWS

GENERALSKILLS / API INTEGRATION

Microsoft office, Photoshop, Autocad, Sketchup, Customer service, Google API, Sendgrid API

TECHNICAL PROJECTS

Ecofreak // MEVN | AWS EC2 - [Github](#) | [Website URL](#)

Web application to inspire environmentally safe practices, and learn how to lessen one's environmental footprint

- Created and styled frontend with Vue and MD bootstrap
- Built collaborative blog interface for users to share and contribute ideas to better help the world
- Created own API to allow users to save directly to database

Parking Spot Finder // Ruby | Rails | React-native | Heroku | AsyncStorage - [Github](#) | [Demo](#)

Mobile application to help users find a parking spot near their current location or destination

- Created a secure login using JSON web Tokens and AsyncStorage
- Enabled seamless mobile iOS and Android UX via React Native and Expo
- Integrated Google Maps API and Google Places API to locate users by on longitude and latitude

Thai Alphabet Flashcards // Ruby | Rails | Javascript - [Github](#) | [Demo](#)

Web application to help learn Thai language, with a mix-and-match game

- Made a mix-and-match memorization game with time limit and dynamic scoring using Javascript
- Designed clean and simple UI/UX for a focused learning experience
- Included audible readouts of letters to aid the visually impaired

Coffee Shop // Ruby | Rails | Javascript | HTML | CSS - [Github](#) | [Demo](#)

Web application to help coffee shop owners keep track of their stock

- Built Full CRUD backend with Ruby on Rails
- Used Javascript, HTML and CSS to style
- Manipulated and set the HTML content of an element using DOM
